■ 評分不合格
 ■ 回標價計算錯誤

綜合以上投標承建商公司資料、回標價格及根據敝司之工程估價(Tender A:HK\$41,700,000 及 Tender B:HK\$20,000,000)，敝司之結論如下：

In Hong Kong, records of civil claims are available for public search. However, the outcome of the judgment may not be necessarily accessible by the public. In addition, the settlement of the lawsuit will not lead to erasure of the related claim from the civil litigation record. The information shown in the report does not show or imply any results of the judgment. Not every case report bears debtor's HKID number in computer records of our office.

This check reveals the civil litigation record of the Subject involved as defendant under the jurisdiction of HKSAR for the last seven years. Content provided include the available data in our database for the Courts including the High Court (The Court of First Instance) and the District Court.

In Hong Kong, records of civil claims are available for public search. However, the outcome of the judgment may not be necessarily accessible by the public. In addition, the settlement of the lawsuit will not lead to erasure of the related claim from the civil litigation record. The information shown in the report does not show or imply any results of the judgment. Not every case report bears debtor's HKID number in computer records of our office.

This check reveals the civil litigation record of the Subject involved as defendant under the jurisdiction of HKSAR for the last seven years. Content provided include the available data in our database for the Courts including the High Court (The Court of First Instance) and the District Court.
